ISSUED EVERY TUESDAY MORNING IN TIME FOR THE MAILS

EASTERN STATES.

MEMPHIS (Tenn.), July 23.—The packet Ida Darragh arrived here to day and reports that last Saturday at Burnett's Landing, forty miles above the mouth of the Arkansas river, a mob of several hundred on the bank fired into the steamer, fatally wounding Alfred Weaver, boss of a gang of convicts. A young machinist in the neighborhood of Red Forks was indebted to a Mrs. King, his landlady, a few dollars for board, and preparing to leave, promised to forward the money, but the landlady caused his arrest, and the magistrate sentenced him to work in the field along with convicts for attempt to defraud. The machinist not working satisfactorily, Werner caused three negro convicts to whip the machinist, from the effects of which he died. The Sheriff of Desha county arrested Werner and the three convicts and was taking them to Arkansas City, when the mob attacked the steamer. One negro convict jumped into the river and was brained while swimming ashore. The mob fired many shots and endangered the lives of passengers. The Sheriff with the wounded Werner and the remaining convicts escaped by transfer to another steamer.

NEW YORK, July 23.—A New York special declares that the crisis is at hand, and asserts that Jay Gould never would have entered the contest had he understood the real situation. A correspondent asserts he had no real knowledge of the strength of the Brotherhood, and would have listened to their statement if he had known the exact facts in the case.

CUMBERLAND (Md.), July 23.—George Kane, Harry Suffer and Worthington McCulloch, young unmarried men from Frostburg, Maryland, were rowing on the Potomac today, when the boat capsized and all were drowned.

DENNISON, (Tex.) July 23.—Saturday a man got aboard a freight train on the Missouri Pacific, near Red River. Upon his fare being demanded, he drew his pistol and killed the brakeman.

NEW YORK, July 23.—James McDermott, who was shot at as a Fenian traitor, has made an affidavit charging James Gaynor with the crime. Gaynor is only recently from Ireland.

SYRACUSE, (N.Y.), July 23.—There was a terrible accident at the blast furnace in Geddes this afternoon. Eight men entered the furnace to construct a lining, when the old lining fell upon them, killing all instantly. Twelve tons of brick fell upon them. The victims are married and have families. Their names were: Jos. Dawson, foreman, John Fogerty, Michael Carroll, Anthony Meyden, Frank Hetty, John Werdell, David Reagan and John Barry.

WHEELING (W. Va.), July 23.—A horrible accident occurred near Webster, Taylor county, this morning. A farmer named William Casson was driving a mowing machine and holding in his arms a child three years old, when the horses became frightened, and the boy fell from his father's arms in front of the cutter bar. The father jumped to save the child, fell, and the machine ran over both. The boy was cut to death and the father horribly mangled and fatally injured. The machine was broken in pieces and one horse killed. It is feared the young wife of the farmer will die from the sudden shock.

PHILADELPHIA, July 18.—Capt. William Cusack, a well known member of the Irish party, said yesterday, in speaking of the charges made by O'Donovan Rossa that $100,000 of the Irish fund had been diverted, that while there might be some truth in the accusations it was not well to discuss the matter publicly. "If any man is convicted of misusing the money subscribed for our cause," said he, "I am in favor of putting him away quietly. These public discussions hurt the cause. I have no doubt that Rossa has proof to substantiate his charges. He always can back up what he says, and he is generally right in exposing such frauds. You must understand that Treasurer Egan is not accused personally of anything crooked. He was deceived by men from this country, who proposed certain plausible schemes and got away with the money." A prominent member of the Land League, recently arrived from Ireland, said that he understood that members of the American Clan-na-Gael Society had secured the $100,000 from Egan in Paris. They claimed to want to use it for revolutionary purposes, and it was never so applied. Egan, however, denies having given the money at all.

SAVED, SAVED, SAVED, was the expression of a distinguished citizen of Des Moines, Iowa, as he stepped out of the front door after being confined to the house for a year. He had been given up to die by his doctors, when a friend brought him a bottle of Dr. Van Buren's Kidney Cure, and in three months he was perfectly well. W

American Mail.

(Per Steamer G. W. Elder.)

A North Carolina girl had her hand completely severed from the arm by an axe. The physician, not being in a condition to amputate the arm above the wrist, replaced the hand, secured it with silver stitches and adhesive plaster, and having bound both arm and hand to a broad splint, ordered them to be kept hot flannel cloth. The third day pulsation could be plainly felt in the hand, which had also changed its color. Says the physician in charge: "I removed the sutures on the fourteenth day, and afterwards she carried the hand in a sling, and is now—three months after the accident—able to extend the fingers and grasp with nearly the usual strength.

The Pilgrim church's chime of bells, in St. Louis, has at length been silenced for the night time; though long litigation was required. Several men living in the neighborhood brought a suit, but could obtain no more from the Supreme Court than an order that the beltry should be boarded an I shut. The Court of Appeals now decides that there shall be no clangor between 9 p.m and 7 a.m., the opinion being expressed that "the striking of the church clock at night is a useless noise and nuisance.

The Chicago Aldermen, who decreed that the Fourth might be celebrated in the old way, are now arraigned as responsible for thirty-two fires, two persons killed, four mortally wounded, and over sixty hurt.

Jennie June says:—"If the women would only dress more simply, the men might be tempted to get themselves up more picturesquely in knee breeches, slashed doublets, and such."

DETROIT, July 17.—One of the boldest highway robberies noted for some time occurred between 10 and 11 last night. Mr. Breshler, a gentleman 60 years of age, was returning home from the depot, where he had been to see a friend off. As he was about to enter the gate one of a party shouted, "Now," and immediately Breshler was attacked by three or four men, seized by the coat, and knocked down, after which the robbers took from him jewelry and money to the amount of about $15,000. When Mr. Breshler recovered consciousness his assailants fled, and no trace of them can be found.

PHOSPHATINE.—An almost certain remedy for Pulmonary Consumption and all chronic and wasting diseases. The greatest medical discovery of the nineteenth century; a scientifically prepared remedy free from quackery; pure, delicious, natural and permanent in its results. Its efficacy is something wonderful; discovered by Prof. G. Lowell Austin, Boston, Mass. Price $1.00 per bottle. For sale by all druggists. dw

A REMARKABLE FACT.

It is a remarkable fact that W. A. Edgers, of Frankville, who was so far gone with liver and kidney complaint that his life was despaired of, was cured with four bottles of Burdock Blood Bitters. At one time he lay a fortnight without an operation of the bowels. (36)

POPULARITY.

Why they are popular. reason that National Pills are so universally popular is because they are certain in their action, mild and painless in their operation, and never leave the bowels constipated. They are sugar coated, and contain no mineral poison. (35)

A PRAISEWORTHY OBJECT.

"None name it but to praise." This is true of that unsurpassed remedy, "Hagyard's Yellow Oil." It cures pain and inflammation, whether from sprain, bruise, or frost-bite, lame back, rheumatism, neuralgia, sore throat, croup, deafness, and for internal and external use. (31)

IF you have feelings of goneness, too weak and dragging to rally, too nervous to sleep, digestion hardly sufficient to keep soul and body together, tired brain, headaches, pains across the back, the whole system relaxed, sore lungs or a cough, and will try from one to six bottles of Dr. Austin's Phosphatine, as the case may require, it will not fail to make you our enthusiastic friend. Price $1.00. For sale by all druggists. dw

IF you are desirous to obtain immediate relief from any kidney trouble, and thus prevent the fatal results that always attend the neglect of those distressing complaints (and who does not?) why, take Dr. Van Buren's Kidney Cure at once. It is safe, simple and effectual. dw

DR. COOPER'S VEGETABLE LIVER-WORT AND KIDNEY CURE

Has no equal as a safe remedy for all diseases of the liver, kidneys and urinary organs. Over 250,000 bottles sold during 1882. Price $1 a bottle. MOORE & Co., sole agents. dw

CANADA.

PROVINCE OF BRITISH COLUMBIA.

VICTORIA, by the Grace of God, of the United Kingdom of Great Britain and Ireland, QUEEN, Defender of the Faith, &c., &c., &c.

To Our faithful the Members elected to serve in the Legislative Assembly of Our said Province, of British Columbia, and summoned and called to a meeting of the Legislature or Parliament of Our said Province, at Our City of Victoria, on Thursday, the Twelfth day of July instant, to have been commenced and held, and every of you—GREETING.

A PROCLAMATION.

ALEX. E. B. DAVIE, *Attorney-General.* WHEREAS THE MEETing of the Legislature or Parliament of the Province of British Columbia stands called for Thursday, the Twelfth day of July instant, at which time, at Our City of Victoria, you were held and constrained to appear.

NOW KNOW YE that, for divers causes and considerations, and taking into consideration the ease and convenience of Our loving subjects, We have thought fit, by and with the advice of Our Executive Council of the Province of British Columbia, to relieve you and each of you, of your attendance at the time aforesaid; hereby convoking, and by these presents enjoining you, and each of you, that on THURSDAY, the THIRTEENTH day of the month of SEPTEMBER next, you meet Us in Our said Legislature or Parliament of Our said Province, at Our City of Victoria, and therein do as may seem necessary. Herein fail not.

IN TESTIMONY WHEREOF, We have caused these Our Letters to be made Patent, and the Great Seal of British Columbia to be hereunto affixed. WITNESS, the Honorable CLEMENT F. CORNWALL, Lieutenant-Governor of Our said Province of British Columbia, in Our City of Victoria, in Our said Province, this Tenth day of July, in the year of Our Lord, one thousand eight hundred and eighty-three, and in the forty-seventh year of Our Reign.

SUNDAY MORNING, JULY 29TH, 1883.

L. P. FISHER, Advertising Agent, 21 Merchants Exchange, San Francisco, is authorised to receive advertisements for the columns of this paper.

WHAT WILL THE HARVEST BE?

The existing drought fills the public mind with some apprehension. For twenty years there has not been a season so unpropitious for crops as that which we are now passing through. Hay, having been gathered early, proved a fair average crop; but grain will be short and roots are suffering. A little rain during the coming week would barely save potatoes and turnips. A like condition of things is noticeable in Oregon and Washington Territory. In those sections previous to this season crops have always been certain. There was never such a disaster as a failure known heretofore. But short crops are now inevitable. California's crops were saved as by a miracle when hope had been abandoned. Therefore a shortage on the north-west coast does not mean very high prices. We think it may be accepted as a fact that the bountiful yield of California will keep grain and potatoes within the reach of men of moderate incomes. Rain is urgently demanded to save the crops; otherwise the harvest will be meagre and unsatisfactory.

THE ONTARIO USURPATION.

The revolutionary act of the Ontario government in taking possession of certain disputed territory, the affairs of which have been administered by Manitoba, is naturally creating much excitement in the latter province. The movement is high-handed and can scarcely fail to produce hard feelings between the two provinces, as well as to embroil Ontario in serious complications with Ottawa. The anomaly is now presented of two sets of officials administering the laws and dealing with the public lands. As fast as one set shall perform any act, the other will upset it, and after awhile anarchy will reign in the district.—The proceeding would appear to be unjustifiable and the end sought is not creditable to a great province

WHY DID SHE DO IT?

A Young Lady Ends Her Life With a Dose of Strychnine.

Shortly after noon on Wednesday Miss May Newton, a young lady aged about 17, committed suicide by taking strychnine at the residence of W. H. Beeton, a gardenea living on Twentieth street, near G, whom she was visiting. At noon Mrs. Beeton left the house to carry dinner to her husband, who was at work on the grounds of H. D. Green, several blocks away, leaving the girl alone in the house. Half an hour later neighbors heard screams as of some one in distress and cries for water. On entering they found Miss Newton on the bed in convulsions. She offered no explanation, but called for water. On Mrs Beeton's return about 1 o'clock the sufferer looked up into her face and exclaimed, "Oh, aunty, a doctor!" Mrs. Beeston hastened to the residence of Dr. Holt C. Wilson near by, and finding him in, brought him to the suffering girl's bedside On the doctor inquiring of her what the matter was, she replied: "Oh, I have taken strychnine." The question was repeated once or twice, the doctor evidently, at first, doubting the young lady's statement. She insisted, however, that she had taken strychnine. "At what time did you take it?" asked the doctor. "At just half-past twelve," gasped the now convulsed girl. "But why did you take it?" To this she would vouchsafe no reply, and the doctor, assisted by his father, did all in his power to counteract the now rapid course of the poison through her system, but it had so thoroughly permeated the body that nothing availed in saving the girl's life. She died shortly afterwards in terrible agony. On a table near the bed was found a piece of paper in her handwriting baaring the words: "May God bless you, Charlie. God bless you all."

Miss Newton is a daughter of Mrs. L. Newton who keeps the Sprague hotel. She came here about six weeks ago to visit Mr. and Mrs. Beeston who have known and loved her since infancy. They have no children, and the girl has always been to them as a daughter, affectionate, kind and dutiful. During Miss Newton's residence at Sprague she was wooed and won by Charles Sproal, a very worthy young man who is employed as locomotive engineer on the Northern Pacific. Her mother objected to the marriage, not on account of the young man's character, but she considered her daughter too young to wed. Some time ago, Mr. Sproal was appointed freight conductor on the O. R. & N. road between this city and Blalocks, and Miss Newton made the visit in order that she might meet her betrothed. She was in regular correspondence with her mother who strongly urged her to return home. Indeed, she evidently had been reading her mother's last letter shortly before she took the poison, as the letter lay opened on the bed. Several times in the past few weeks, she has asked advice from her lover as to what course to pursue in regard to returning home, and both concluded that it would be more peaceful to all concerned if they should get married as soon as possible, and an appointment was made for Thursday evening (last night) to fix the date for the ceremony. Mr. Sproal arrived on his regular run, at noon yesterday, when the shocking news was brought to him. The mother was telegraphed for Wednesday night, and reached here by yesterday afternoon's train. The body will be buried in Lone Fir cemetery.

Mr. Beeston has had a bottle of strychnine in the house for the past year, having bought it as rat poison. He had used about half the contents, and the remainder, properly labeled, stood upon a shelf in his book case. It was here that the unfortunate girl secured the poison.

Dufferin on Canada.

LONDON, July 12.—Lord Dufferin was entertained at a banquet by the Empire Club last night. Among those present were Mr. Lowell, Hon. Alexander Mackenzie, and Sir Charles Tupper. In reply to the toast of his health Lord Dufferin said he believed that before the close of the next century the population of Canada would be forty millions. He also believed the English people were becoming more aware of the feeling of attachment towards the Mother Country existing in the colonies, and would never permit the government to repeat the errors by which they had lost the United States of America.

MR. SHAKESPEARE, M. P.,

IN THE OLD COUNTRY.

HE LECTURES ON CANADA AND THE "GLORIOUS PROVINCE"

And is Invited to Repeat the Lecture.

(Brierley Hill (Eng.,) Advertiser, June 30.)

On Tuesday night, Mr. Noah Shakespeare, M. P. for Victoria, in the Parliament of the Dominion of Canada, formerly of Brierley-Hill, delivered a lecture in the Bank-street Wesleyan Chapel, on "The Extent and Resources of Canada, especially of Manitoba and British Columbia." Originally it was intended that the lecture should be given in the school-room, but the number of tickets disposed of rendered it desirable to have the lecture in the chapel. Mr. E. E. Cooper presided, and there was a good attendance, the body of the chapel being well filled. The lecture was quite a success, and the proceeds are to be devoted to the school improvement fund. In the first portion of his remarks the lecturer spoke more particularly with regard to the province of Ontario, its farm and lands, its advantages for persons with means, and pointed out that Canada enjoyed the ut most religious liberty, and that the poorer classes of the population were rapidly improving in the matter of education by the free school system. The portions of Canada which were attracting the attention of the world were the provinces of Manitoba and British Columbia. In regard to Manitoba he quoted from a speech of Lord Dufferin's delivered in Winnipeg in 1879, when that province was beginning to be settled, to the effect that: "Manitoba may be regarded as the keystone of that mighty arch of the sister provinces which spans the continent from the Atlantic to the Pacific; and, further, that Canada, the owner of half a continent, in the magnitude of her possessions, in the wealth of her resources, in the sinews of her material might, is peer of any power on earth." The climate of this province, and the pre-emptions in the comparatively small capital necessary to begin farming with, were spoken of, and the testimony of the settlers was quoted on this latter point. That of Mr. Alexander Adams, of Clear Springs, was, "Any man with three hundred dollars, willing to work, can soon be independent here." Outside the province of Manitoba extended the vast North West Territory of Canada, with its lakes and rivers. In this territory there was room for a population of 70,000,000. It was the country for the industrious working man; also for the man of means. It was here that he had the opportunity of becoming wealthy in a comparatively short time. The province of British Columbia formed the western face of the Dominion of Canada. It had a coast line of 500 miles on the Pacific Ocean, with innumerable bays, harbors and inlets, and an area of 350,000 square miles. If it were described from the characteristics of the climate and great mineral wealth it might be said to be the Great Britain and California of the Dominion. The province was divided into two parts —the island of Vancouver and the mainland. The island was looked upon as a second paradise. The coal fields of British Columbia were probably more valuable than its gold mines. Bituminous coal was found in Vancouver Island in several places, and anthracite coal of excellent quality on Queen Charlotte Island. This was said to be superior to the Pennsylvania anthracite, and although coal was found in California, that which was found in British Columbia commanded £3 4s. per ton in San Francisco. The fisheries of the province were as yet almost untouched industrially, except the salmon fishery which had rapidly become an important industry. Professor Dawson, of the Dominion Geological Survey, reported that the forests of British Columbia were of vast importance. Iron had been found in many localities, both in the interior and on the coast of the mainland and in Vancouver Island, but little attention had been paid to the deposits, under the impression that the high price of labor and the adverse American tariff would prevent their remunerative working. The class of men required in British Columbia at the present time were the large and small capitalist, and those not afraid of work, and there was also a great demand for domestic servants. A hearty vote of thanks was accorded to the lecturer. In the course of some remarks the Rev. T. Bishop said that Brierley-Hill did not go ahead as it ought to, and suggested that the Local Board should erect swimming baths. At the close of the proceedings a deputation from Stourbridge waited on Mr. Shakespeare and obtained from him a promise to deliver the lecture there.

Commenting on the lecture the Brierly Hill *Advertiser* says:—

"Mr. Noah Shakespeare, M. P. for Victoria, in the Dominion of Canada, delivered a lecture on Canada, in the Bank-street Chapel, Brierley Hill, on Tuesday night, dealing principally with the provinces of Manitoba and British Columbia. His remarks showed the vast extent and resources of the country, and the great development of which it is capable. While, however, the coal fields of British Columbia are probably more valuable than its gold fields its iron deposits seem to remain untouched, the impression being that the high price of labor and the adverse American tariff would at present prevent its remunerative working. Here are two countries which nature intended should carry on a free trade, and yet human agency steps in, and by raising artificial and absurd barriers, cripples the development of industries. But the time may not be far distant when the war of tariffs shall cease. Even now there are signs of it. Mr. John Bright, who speaks as one having authority on this question, looks forward to the time when the protective tariff of America shall be at least modified into a revenue tariff, by which the people of that vast Continent will be enabled to exchange the products of their labor more freely than they are under the present hurtful system of protection.

The Colonist Stationery Department.

Having extended our Publishing and Printing departments, and being about to occupy our new and more commodious premises, we have disposed of our large and miscellaneous stock of stationery to Messrs. T. N. HIBBEN & Co. We ask our former customers to accord to Messrs. HIBBEN & Co. a continuance of those favors which have been liberally extended to us in the past. *

DR. CHAN TAN TONG, from Canton, skillfully and confidentially treats all diseases of men, women and children. Office Bow Gee Tong, Government street. Dr. Chan Lan Tong practiced at San Francisco for ten years, and guarantees a cure as he uses hot medicines. *

SHOOTING AFFRAY.

A Man Who Insults His Neighbor's Wife is Killed by the Enraged Husband.

(Special to the Oregonian.

LINKVILLE, Or., (via Ashland), July 26.—A man named Larkins was killed this morning by a neighbor named Weeden, after a short but bitter quarrel of words between the two. Weeden first fired at Larkins with a shotgun loaded with bird shot, knocking him off the horse on which he was riding at the time of the quarrel. Weeden then came up to the wounded man, where he was lying on the ground, and beat his brains out with the butt of the gun. The homicide then went to Tule Lake, where he gave himself up to the justice of the peace in that precinct. The trouble grew out of Larkins' having used abusive language to Mrs. Weeden. Both men were residents of Klamath county. The shooting affray took place at Weeden's ranch, near the mouth of Lost river.

EUROPE.

LONDON, July 21.—Five more bodies of victims of the steamship Daphne disaster at Glasgow have been recovered, making the number of bodies so far found 123. According to a corrected list of the victims only one body is now missing.

LONDON, July 21.—In the trial of the Jews at Nyreghazza, Hungary, Julia Vannan and the coachman withdrew their evidence, which was favorable to the prisoners. They admitted that they had been threatened with death by the populace. They will be prosecuted for perjury.

LATEST NOVELTIES in Seaside hats for ladies and children. Fifty dozen per G. W. Elder at D. Spencer's, Commerce House. *

A. B. GRAY & CO.

OFFER FOR SALE IN PRIME CONDITION

TENNENT'S

PALE ALE & STOUT

THESE HAVE BEEN AWARDED HIGHEST Honors at recent Exhibitions.

COLD MEDAL AT MELBOURNE, 1880.
COLD MEDAL AT NEW ZEALAND, 1882.
COLD MEDAL AT BORDEAUX, 1882.

J. & R. Tennent deem it of the utmost importance at this time to direct *special* attention to the fact that they continue to brew only from the Best of Malt and Hops.

Owing to recent changes in the Excise Laws, Beer and Stout can now legally be brewed from other materials, which, in consequence of cheapness, are being largely taken advantage of, but of which Messrs. T. entirely disapprove, and accordingly they continue to use only malt made from the finest Scotch and English Barleys.

The purchasers of the Red T Brand have a guarantee of its being a "standard" malt liquor, and for which it has been well known for over half a century in all the foreign markets. This standard of excellence it still maintains as has been recently attested at the Exhibitions in Melbourne, 1880; New Zealand, 1881; Bordeaux, 1882.

N. B.—There have been more piracies of the Red T brand than of any other, which attests its superiority. These piracies have been suppressed in many markets and openly interdicted by law in Germany in 1861 and again in 1877, where the practice was most notorious. A. B. GRAY & CO.,
jy24 Wharf St., Sole Agents for B. C.

DR. DAVIE

NEW WESTMINSTER, July 28.

Heavy bush fires are raging on all sides and the city has been completely enveloped in smoke for the past three days. Reports from the north arm state that Gillespie's lumbering camp was burned out last night. The fire is spreading and threatening several other camps.

Steamer Reliance from Yale arrived here last night about midnight, having had to proceed with one engine owing to bursting of one of her cylinder heads yesterday near Hope.

Steamer R. P. Rithet from Victoria arrived at 7 o'clock.

What Some People Say.

That the daughter of an earl stopped dancing with the Prince of Wales and openly refused to go on, because he was holding her too closely, in a large ball room. She left him in the middle of the floor and asked an acquaintance to take her to her mother.

That what did the paper weight for? And why did the ink stand? And the pen rack? And what did the paste brush? And the letter file? And the gum bottle?

That an unfortunate diner at a hotel gazed in evident embarrassment at the bill of fare printed in French, and finally said, pointing to the word at the top, "You may bring me some menu, and be sure to have it well done."

That Field-Marshal Von Moltke was taken for a tramp recently, and ordered out of one of the German inland villages.

That young men in London with an abundance of money have taken a fancy to have cabs painted pink, yellow and blue.

That the Grimm brothers, the famous writers of German fairy lore, are to have a monument through popular subscription.

That a San Francisco preacher advertised that he would discuss a family scandal on the following Sunday morning. As a consequence the church was crowded. The subject was Adam and Eve.

That the Yale *Sentinel* furnishes information as to the neglect with which the Indians in that district are treated.

That Mrs. Dr. Sawtelle, who doubtless has a shingle loose, spat in the face of the Mayor of Olympia and struck that worthy gentleman with her fist. She is crazy; and yet there is a "method in her madness," for she swindled the Victoria printers during her recent visit here.

That a man named Munson from Tacoma cut his throat at Olympia several days ago. The alarming number of Tacoma people who have killed themselves of late moves a Sound paper to ask if the climate of the place has anything to do with a man's suicidal tendencies.

That we are glad to say that Rev. Mr. Malachi is at last convalescent.

That the board of trade will probably hold a general meeting in a few days to consider some matters of public importance.

That the seventh daughter of the seventh son has arrived from Australia and may be consulted on Fort street next to the Vancouver Bakery.

That a report, probably sensational, states that the cholera has broken out at Oaxaca, Mexico.

That the Blue Ribbon War Song by Mr. Francis, is for sale at Messrs. M. W. Waitt & Co 's, Government street. *

That Naas river oolachans may be had in kits at Fell & Co's, Fort street. *

That the Chatham farm wagon with patent climax truss axle is imported only by Fellows & Prior, Government street, who are sole agents for the province. It is the best wagon now made, light running and durable.

That copies of the tariff changes may be had at *The Colonist* office and the bookstores to-day. *

A LONG FELT WANT.—A ladies' restaurant and ice cream saloon, handsomely furnished and fitted, with marble-top tables, in the central part of the city.

PROTESTANT ORPHAN'S HOME.

Laying of the Corner Stone.

Yesterday afternoon the ceremony of laying the corner stone of the new Protestant Orphan's Home to be erected upon the corner of Blanchard and Rae streets was conducted by the Masonic fraternity of Victoria. The building of which the foundations are already laid, will be 38 feet by 48 feet built of wood, two stories high with a mansard roof. The architect is Mr. Burris and the builder Mr. Hayward. The foundation stone was suspended from a derrick at the north west corner of the building, and bore the inscription "Protestant Orphan's Home, erected A. D., 1883, A. L. 5883, E. C. Baker, G. M." Seats in tiers had been erected on different sides and in rear of those occupied by the choir which was composed of members from those of different churches in the city, rose the semi-circular motto "All our children greet you" and below "God Save the Queen."

The afternoon was beautifully fine and the pleasing nature of the occasion and the rarity of the ceremonies attending it, attracted a large assemblage of influential citizens which completely occupied the seats provided, the ladies forming the majority of those present.

The Masonic fraternity having opened the grand lodge in their hall, formed in procession under Grand Marshal W. F. O'Connor headed by the Victoria Brass Band, the order of the procession and the programme of the route having been already published. Within the foundations of the building a table with a white cloth had been provided, and when the procession arrived and had opened out to allow the grand officers to pass in, the vessels of gold and silver and Masonic implements were laid upon it, the Grand Master, E. C. Baker, Esq., standing near it with the brethren round him.

Air by the band.

Mr. A. A. Green as president of the Orphanage having welcomed the Grand Master and the fraternity, he briefly replied that it was their pleasing task to perform a work which he trusted would perpetuate good to all eternity.

The grand chaplain, the Rev. Mr. Smith then engaged in prayer.

Grand Treasurer Waitt then placed the glass jar in the cavity of the stone containing the following document and coins the list of which was read as follows:

History of the Protestant Orphanage on Vellum.
The newspapers of the province.
Anderson's essay on British Columbia.
Coins of England, Canada and the United States.
List of Grand Lodge officers.
Constitution of the Protestant Orphan's Home.
Tenth annual report of the Protestant Orphan's Home.

The band again played an appropriate air, and the mortar having been placed on the stone, the Grand Master advanced with a silver trowel presented by Mr. A. A. Green, president of the Home, and having finally spread the mortar, the implements of masonry were ordered to be produced by the different officers.

The choir under the leadership of Past Grand Master Chambers, Miss Monatt presiding at the organ, now sang a hymn, after which the Grand Master proceeded with the formula and ordered the square, level and plumb to be applied to the stone by the various officers, who reported accordingly.

The Grand Master thereupon declared he found the stone tested in proper form and directed the grand director of ceremonies, C. Neufelder, Esq., to see to the consecration of the proper elements.

Corn, wine and oil were then scattered and poured upon the stone by the officers appointed.

The Grand Master then said blessings through all the world would assist in the erection of the building and spoke of the typical significance of the corn, wine and oil.

By order of the grand director of ceremonies the public grand honors were then given.

The Grand Master then returned the plans to the architect with the implements of the craft, with full charge to complete the building, expressing every confidence in his ability so to do.

The choir sang the anthem "Behold how good and joyful a thing."

The Grand Master then made a short masonic address saying they had assembled to lay the stone of a home for helpless children, and he prayed God to temper the wind to the shorn lamb, and that their work might bring forth good to the glory of the architect of the universe.

The Grand Master then introduced Senator Macdonald, who gave some interesting particulars of the origin, history and present state of the institution which will be published hereafter.

The Masonic brethren next passed by the stone depositing silver coin upon it according to the ritual, for the workmen engaged in the construction of the temple.

The Grand Master said all were at liberty to join the brethren in contributing to the orphans, whereupon numbers stepped forward and the stone was soon covered with silver.

The Grand Treasurer then announced that the brethren desired to present a purse of $250 for the use of the Orphan's Home.

The Grand Master presented the purse, stating it was in addition to the offerings laid on the stone.

Mr. A. A. Green, President, in thanking the brethren on behalf of the committee of the Orphans' Home, said that both they and those who had charge of the institution had the same object in view—the relief of the distressed.

The Grand Treasurer then removed the silver from the stone which amounted to $122.40.

The Right Rev. Bishop Cridge engaged in prayer, after which the Grand Chaplain, the Rev. Mr. Smith, closed with the Masonic benediction.

The Grand Master, in conclusion, thanked the assemblage one and all for their attention and assistance.

The Grand Marshal was then ordered to re form the procession, which, headed by the band, returned along Douglas street to the Masonic Hall.

This ended one of the most imposing and agreeable ceremonies which has been witnessed in Victoria for some time, and the object of which will confer lasting benefits.

THE TROWEL.

The silver trowel used for the occasion was presented by A. A. Green, Esq., president of the Orphanage, and was manufactured by Mr. C. E. Redfern, jeweler, Government street. It is in the form of a flat pointed shield and has a polished handle of black walnut. Engraved on one side are the compasses and square surrounded by an ornamental border, and below the inscription, "E. C. Baker, 1883." Beneath this again is a circular rule, and below on either side chased scroll work.

On the back side is the inscription, "Presented to M. W. E. C. Baker, Grand Master Mason of British Columbia, by A. A. Green, President of the B. C. Orphan's Home, on laying the corner stone of the Orphanage. Victoria, B.C., July 28th, A.L. 5883." The trowel is of tasteful design and its execution is highly creditable as an illustration of one of our local branches of industry.

The contract price of the new building is $4,237.

Deaths at Nicola.

[Correspondence of The Colonist.]

On the evening of the 20th inst. a very strange and sudden death occurred at the residence of John Clapperton, in the person of Freddie Matthews, aged between 7 and 8 years, a boarding pupil at "All Saints Mission School," Nicola.

About half past four p.m. the teacher, Miss Kendall, took the boarders across to Mr. Clapperton's garden to pick currants. On the children filling their cans with fruit Miss K. returned to the school house, the little ones following close behind. When the children arrived Miss Kendall asked where Freddie Matthews was? Some of the elder girls remarked in response that they thought he had returned home. Miss K. at once began to search for the missing lad, (sending word to his father who lived but a short way from school); on returning to the garden one of the young lady pupils (Miss Roper) discovered the boy in a small stream of water that runs through the garden, but which is completely hidden by a dense growth of shrubbery. His head was entirely above water, his body in it. Miss Roper was accompanied by another pupil, Miss Voght. The latter was afraid to touch the boy, but Miss Roper bravely lifted the lifeless form of the lad from out the water, and screaming for help, was first met by the boy's father (T. Matthews), who relieved the young lady of the dripping corpse. The boy was carried into Mr. Clapperton's house. The evening being warm he was transferred to the verandah floor, when Mrs. A. E. Howse quickly divested him of his clothing, and cited all possible means to restore animation, until Mr. Howse and the other neighbors arrived. Everything was done that could be done by strong arms and willing hearts to rekindle the flame of life. But the boy was dead; and human aid availed not.

Next day, 21st, by request of Mr. Matthews and others an inquest was held on the remains before Jno. Clapperton, Esq., J. P., coroner for the district. The following jurors were sworn in: Rev. R. B. Hemlaw (foreman), Paul J. Gillie, George Fensom, Robert Johnson, Wm. Riley.

The following witnesses were examined: Thomas Matthews (father of deceased); Miss Kendall, principal A. S. Mission School; Mrs. A. E. Howse, who stripped the boy; Miss Roper, who found and took the lad out of the water; Miss Voghl, who was with Miss Roper, and Alex. Crawford.

The jury returned the following verdict: Found dead. No evidence to show the cause of death.

The foreman also made the following verbal statement: "We the jury consider it just to 'All Saints Mission School' to say that no blame whatever is attached to any person, or persons, in connection with the above excellent institution."

The coroner thanked the jury for their verdict and verbal expression which ended the inquiry.

I have now to record the death at 5 a. m. this morning of Mr. Florien Mickle, and at 11 a. m. of Joseph Blackbourn, junr.

The former has been for a long time ill; his death expected. He was about 50 years of age. Came to this province with one of the Canadian overland parties in 1862; worked in early days at his trade (blacksmith) and was well known from Victoria to Cariboo. Deceased was an honest man, a good, kind neighbor and a useful member of society.

The death of Master Blackbourn is sad indeed. Poor boy! a few days ago he was enjoying life, as only a boy of 14 can do. The medical man who attended him says he suffered from mountain fever. The bereaved homes have the fullest sympathy of the people. A strange coincidence may here be mentioned. In Nicola church yard, two years ago, three open graves yawned to receive the bodies of John S. Moore, Mrs. Matthews and Saml. Moore's child. This day three graves await the remains of Florien Mickle, Joseph Blackbourn and Fredk. Matthews.

We are in sorrow and reflection over the mysterious ways of Him who meteth out our days and guides our goings to appointed places.

Nicola Lake, July 21st, 1883.

Nanaimo.

(Free Press.)

An extensive bush fire is raging in the vicinity of Chase river, and near the main road. It destroyed a portion of the telegraph line, but our energetic operator had it up again as soon as the fire passed over. Bush fires are raging throughout the district, and if this phenomena dry weather continues, we are afraid that the fires will cause serious trouble and loss.

G. Ross, T. Hopkins, J. Gimmell, T. Baird, R. Hocking and others left by the steamer Otter on Wednesday to prospect for coal on the West Coast, for an American company, who have secured some presumed coal lands at Quatsino Sound.

Mr. M. Bray, government agent, has just returned from an official visit to Gabriola Island. He suggests that a new wharf be erected a little distance to the north of the present site. A school house will be erected at the north end of the Island, but as the appropriation is too small, it will not be completed this year. It will be arranged so that school can be held in it this year.

The stone work on the post office is rapidly approaching completion, the workmen being now engaged in putting on the top courses of cut stone. Carpenters are busy at work inside the building doing the interior work. Under the skilful management of Mr. G. Clarke of Smith & Clarke, contractors, the work goes on with the precision of clockwork. Ex-Mayor Pawson, the government superintendent, is to be seen around the building at all hours, seeing that the work is carried on according to specifications. Nanaimoites may well feel proud of the building.

The locomotive of this company made its first trip over the road on Tuesday last with Mr. James Hunter, mine foreman, at the throttle valve, accompanied by Superintendent Wingate, Mr. J. Dick, railroad constructor and several others. It was the general opinion that the machine ran well, and will do excellent service. The company on board being members of the Blue Ribbon Society no champagne was broached.

Rev. Father Bouchard will lecture in St. Andrew's cathedral this evening.

A WONDERFUL ENTERTAIN'T

An Evening with the Spirits

—AT—

PHILHARMONIC HALL,

TUESDAY and WEDNESDAY EVENINGS, July 31 and August 1st.

A THOROUGH EXPOSE OF THE SO CALLED SPIRIT MEDIUMS

—BY—

CHAS. H. AND ORILLA READ,

The identical persons who Exposed the Great Katie King Fraud at the City of Philadelphia.

SPIRIT HANDS,
SPIRIT FACES,
SPIRIT FORMS

And the Spirit of KATIE KING, and HONTO, the Indian Maiden, will positively appear.

Slate and Pellet Writing, the answering of Sealed Letters and the Celebrated Post Test will be given and thoroughly explained.

EVERYTHING DONE AS ADVERTISED OR MONEY WILL BE REFUNDED.

Endorsed by the Press and Clergy throughout the United States and Canadas.

Come and see for Yourselves.

Take no one's word for it.

☞See Small Bills.

ADMISSION—Front Seats, $1; Back Seats, 50 cts; to be had at T. N. Hibbben & Co.'s Book Store. Carriages may be ordered at 10:30.

jy29 JAMES HIBBARD, Agent.

City of Victoria Rifle Association.

This association held its first monthly meeting yesterday afternoon at Clover Point. The scores were a good deal below the usual average in consequence of the strong wind blowing. In the first match seven shots at 200 and 400 yards were allowed to each competitor, out of whom the following won prizes: J. P. Kennedy, 52; R. Wolfenden, 50; J. Sargison, 42-7, 49; E. V. Bodwell, 41-3, 44; R. Butler, 42; H. Smith, 38-3, 41; P. Wollacott, 41; N. Williams, 35-6, 41.

At the second match the firing was from 300 and 500 yards ranges, and resulted as follows: R. Butler, 36; J. E. DeVeulle, 30-5; R. Wolfenden, 34; R. E. Green, 29; H. Smith, 25-2½, 27½; Lieut. C. G. May, 22-4½, 26½; E. V. Bodwell, 22-2½, 24½; J. White, 18-4, 22.

In the third match the ranges chosen were the 200, 400 and 600 yards; five rounds at each range. The victors were: J. Harmon, 50-7, 57; Sergt. N. A. Eales, 45-7, 52; J. Sargison, 45-6½, 51½; H. Smith, 48-3½, 51½; R. Butler, 21; C. E. Pooley, 47-3½, 50½; R. Wolfenden, 49; J. Kennedy, 46; P. Wollacott, 44.

Prizes in the Consolation Match were secured by A. W. Jones, 20-1½, 21½; E. Fletcher, 17-1½, 18½; J. Gill, R. N., 15-2½, 17½; H. Rhodes, 14-2½, 16½; H. S. Roebuck, 14-1½, 15½.

The rifle used was the Snyder, Government issue, and officers and men of the navy were allowed to compete. No sighting shots were allowed. The day, though fine, was not favorable for target shooting.

Marine.

Early yesterday morning the steamship Geo. W. Elder arrived from San Francisco with 107 passengers and 424 tons of freight for Victoria. For the Sound she had 151 passengers and 600 tons of freight. She encountered head winds. Passed the Sardonyx Tuesday, and sailed for the Sound last evening.

Ship Jabez Howe, seven days from Departure Bay, arrived at San Francisco on the 23rd.

Barque Martha for Burrard Inlet sailed from Yokohama on July 26th.

The barque Niphon is stated to have sailed from Rio Janerio on June 24th for Victoria.

Naval.

Yesterday afternoon about 4 o'clock H. M. S. Mutine, with Admiral Lyons on board, passed the mouth of the harbor, bound for the North-West coast.

BEAUTIFUL MIRAGE.—Yesterday a beautiful and startling mirage was visible from Beacon Hill. A high bluff, with ragged profile and crowned by a level plateau, appeared on the Metchosin shore. Between Race Rocks and this harbor a large vessel with all sail set was speeding towards the straits, and high up in the clouds appeared another vessel, a counterpart of the one in the water, upside down! The mirage was visible for about ten minutes when it gradually faded away, to return again at irregular intervals and in varying forms.

BLUE RIBBON MOVEMENT.—Another meeting of the Blue Ribbon Club was held last night at the Omineca Hall. Speeches, recitations and songs whiled away the pleasant hours while the refreshments were of the first quality. The orchestral music seemed to be even more harmonious than usual, which is saying a great deal. The president urged the members to swell the number of the choir, while Mr. Rudge who was among the speakers, showed he had lost none of his happy faculty of condensing in a few words sterling common sense and healthful advice. There will be another meeting next Saturday.

FROM NEW WESTMINSTER.—The steamer R. P. Rithet arrived from New Westminster at 1 o'clock yesterday morning, having been delayed by an accident to the str. Reliance which occurred on the downward trip a little below Hope. The Reliance unfortunately broke her shaft and blew out her cylinder head, but nobody was hurt nor further damage sustained by the boat. The Rithet would have gone up the river, but the position of the Reliance could not be ascertained. The run of fish on the Fraser is reported as somewhat improved.

FROM NEW WESTMINSTER.—The steamer Enterprise arrived yesterday afternoon. Considerable difficulty was experienced in coming down the river as the smoke from the bush fires hung over the water like a pall. The woods are burning in so many places that the whole country has the appearance of being on fire.

WEST SAANICH ROAD.—A meeting of settlers on the West Saanich road was held Friday evening, when it was resolved to request the government to survey a line of road to avoid the hills between Sluggett's and Stevens'.

NEW WESTMINSTER.—Salmon are still coy.... The ball given by the captains of ships now at Granville was a very pleasant affair.... The holding of the county court is again postponed.

MONTAGUE HARBOR.—Mr. George F. D. Simpson, late of this city, has built a substantial house at Montague Harbor, Galiano Island, Plumper Pass, and will farm and raise sheep on the island.

REAL ESTATE.—Remember that the great real estate sale at New Westminster takes place on Tuesday evening next. *

Yale.

The grading on H. F. Keefer's contract will be all finished in a month, except two cuts, one of which contains about 40,000 cubic yards, not heavy work, and the other 12,000 cubic yards, very heavy work; two large gangs of men are busily engaged at present, with Messrs. Thomas Binnie and J. Glassey, as foremen, the former of whom is the prince of foremen at heavy work.

The railway company are going to work the steam shovels at camp 27—opposite the 42 Mile House.

The Salmon river bridge is almost finished, and the cars are expected to be at the residence of G. A. Keefer, Esq., Resident Engineer, 40 miles above Yale, on the 15th of August.

The dry weather continues, and bush fires are to be seen along the mountain sides. It was feared yesterday that the one up Yale creek might reach the town. A large quantity of valuable timber has been destroyed. Rain is very much needed.

Sir Alexander Campbell.

This distinguished member of the Dominion cabinet had an interview with the Executive yesterday, respecting the matters at varience between the province and the Dominion, and another interview will take place to-morrow. Sir Alexander visited H.M.S. Swiftsure and other points of interest yesterday. He and Miss Campbell will be guests at Government House during their stay here. Many citizens wish to pay their respects to the minister of justice. May we not suggest that one of the public offices be set apart for the accommodation of Sir Alexander and those who may wish to call on him.

Municipal Police Court.

(Before Hon. A. F. Pemberton.)

SATURDAY, July 25.

VAGRANCY.

A woman named Mrs. Eastman was charged with drunkenness and vagrancy. She was an old offender, and his honor fined her $25, with the alternative of three months' imprisonment.

Port Hammond.

Track laying has commenced at this important point and will be continued with all dispatch. A few days ago this station was visited by Messrs. Marcus Smith and Underdonk. It is expected that one of the gigantic steam shovels, doing the work of three hundred men, will be shortly in running order on the grade above the station.

Exposure of Charlatanism.

Mr. C. H. Read, a famous exposure of spiritual frauds, has arrived in town for the purpose of exposing a certain class of so called spiritualistic manifestations. Mr. Read detected the Katie-King imposture and drove the operators in confusion from their wicked calling. He performs in open gaslight all the feats of Slade and other pretenders, and has won encomiums everywhere. At Los Angeles, California, he was the recipient of a complimentary address, signed by the mayor and other prominent citizens. The Philharmonic is the hall, and Tuesday and Wednesday the evenings, when the exposé will be made.

SPALLMACHEEN.—A correspondent of the *Sentinel* writes: It has been fearfully dry here for a long time; crops are suffering for want of rain. Every prospect of rain to-day, which if it comes will save most of the grain crops. Hay is all right so far; cattle are looking well in this section, but the grass is now fast drying up. Great bush fires are raging throughout the entire country, and in some sections there are grave apprehensions that serious damage may result. The Eagle Pass waggon road gives a market for all extra produce, in the way of cattle, pigs, butter, roots, etc., at good prices. Settlers are still coming in and there is plenty of work for all who come. Repairs on public works are being pushed rapidly forward.

THE Rev. Dr. Marvin, a celebrated preacher from Portland, whose sermons we have frequently seen published in the *Oregonian*, is staying at the Driard, and, we understand, will preach in St. Andrew's Presbyterian church this evening.

English Mail.

(Per Steamer Geo. W. Elder.)

Mr. Spurgeon surprised his congregation a few Sundays ago. He began his sermon as usual, and got through his "firstly" pretty well. Then, feeling very warm himself, and seeing his congregation growing listless, he interrupted himself with the remark, "That is the end of the 'firstly,' and it's so warm to-day that I think the secondly and thirdly will keep for a cooler Sunday." So the congregation went its way and Mr. Spurgeon went his way.

The other day an author went to Dumas to read to him two plays. After he read one of them he asked Dumas: "What do you think of it?" "I like the other better," was the reply.

In repairing the Protestant Church of St James at Augsburg recently the workmen had occasion to take down an old organ, and in so doing detached some of the plaster from the wall behind it. The color of the uncovered surface led to an investigation which revealed several large and beautiful frescoes beneath numerous coats of whitewash, ancient and modern. Below was found an inscription showing that the frescoes were executed between the years 1480 and 1496.

The vast field of ancient geography yet to be explored is indicated by the fact that 2,000 names of places outside of Egypt mentioned in the geographical lists still await identification.

Sir Richard Temple is reported to have recently said: "I have, during my life in India, been the local governor of 105,000,000 of people in different provinces. Thousands of Europeans have served under me, and I ought to know something of the value and character of men. I have also been acquainted with the missionary stations throughout the length and breadth of the country. I believe that a more talented, zealous, and able body of men than the missionaries does not exist."

PROF. FRANCIS is prepared to fill orders in tuning and repairing Musical Instruments of all kinds. Residence corner of Chatham and Douglas 3m*

The Dairy.

A quart of good milk should weigh about 2.15 pounds, or nearly 2 pounds 2½ ounces. If milk is weighed, this will give the monthly yield in quarts more exactly than measuring.

The milk from heifers is apt to be less in amount, though quite as rich in cream, as it will be on the same food when the animal is older. Some growth continues up to four, and occasionally five, years of age, and this growth utilizes the nutriment that would otherwise go to milk.

Any cause that interferes with the condition of the cow after calving may produce milk fever. Exposure, too much exercise, nervous excitement, is sufficient to bring on an attack, and a recovery is rare. It is the "ounce of prevention" in this case, as in so many others, that is worth the pound of cure. Keep the animal quiet for a week before and after calving and nurse her well.

The method practised, to some extent, in some of the eastern States, of storing winter provisions for cattle—especially for milch cows—in silos, and preserving it in a state of greenness and juiciness, which is called ensilage, and about which much has been written *pro* and *con*, has not yet obtained among western farmers. We do not make claim to much information on the subject of ensilage, but are inclined to the opinion from reading stock and agricultural journals that some, at least of those who have incurred considerable expense in constructing silos would be glad to have their money back; and many, after a trial from one to three years, are convinced ensilage is not what it has been "cracked up to be."—*Dairy and Farm Journal.*

The sacrifice of your calves in dairies is a shortsighted business. It is supposed that it pays better to buy cows than to rear them. A very little consideration must show that this idea is a mistake, and moreover a very unprofitable one. No one who has reared a good cow will sell her. She is kept while the poor ones are sold, and the dairyman who buys cows gets the cullings of the herds. But there is never a loss but some one gains by it, and so one may very profitably pick up the best of the heifer calves that are to be bought, and rear them more cheaply than cows can be purchased. As long as there are dairymen who cannot see their own interest any better than buying cows at $50 or $60 each, there will be persons who can make a good business of rearing calves to cows and filling this demand. And it is quite safe to say that they will make more money than the purchasers will, simply because a calf can be reared to 2½ years old for less money than a cow costs.

There is some misunderstanding in regard to the use of oil cake meal. It is generally supposed this feeding substance is valuable only for the fat contained in it. This view does not seem to be sustained by the facts. As in other manufactures, there are "new processes" in the making of vegetable oils. The residue of the oil is now extracted from linseed cake after the first pressing, by means of volatile ethereal solvents, such as benzine, which dissolve every particle of the oil, and leave the meal so free from oil that it will not even stain paper under heated pressure. Such meal is considered of little value. But this is a mistake. It is of more value in the dairy than the old process meal, because it contains more protein substances, as albumen, mucilage, etc., all of which not only furnish flesh-forming matter, but which also go to make fat. Such meal is of more value in the dairy to mix with starchy food, as corn meal, because it adds the needed protein, and is devoid of the oil, which has always given a bad flavor and texture to the butter.—*New York Dairy.*

Of Course He Remembered Her.

Jim Sniverley had been absent from Austin for several years. He returned not long since, and one of the first men he met was Bill Tinkerson. They had been taking a social drink, when Bill remarked:

"Do you remember Sally Jane Benderley?"

"That great, big, gawky, red-headed girl with freckles as big as a dime all over her nose?"

"Yes—that's the gal."

"Of course I remember her. Nobody could ever forget her. It is impossible to duplicate a face like that. She had a mouth like a catfish. What of her?"

"Oh, nothing, except she is my wife."

THIS IS RELIABLE.

R. N. Wheeler, Merchant, of Everton was cured of a severe attack of inflammation of the lungs by Hagyard's Pectoral Balsam. This great throat and lung healer cures weak lungs, coughs, hoarseness, bronchitis, and all Pectoral complaints.

THE GREAT NATURAL DEMAND.

In order to supply the great natural demand for a remedy of real merit, one capable of cleansing the system, purifying the blood, regulating the liver, and acting on the bowels, the California Fig Syrup Company has commenced the manufacture on a laage scale of a concentrated Syrup of Figs, and is sending out trial bottles to be given away, so that it costs nothing to try it and convince yourself of its efficacy. And as every family needs a bottle it is also for sale in 75 cent and $1.25 bottles at Langley & Co.'s Drug Store, Agents for B.C. 3

NEW ADVERTISEMENTS.

A BYLAW

TO REGULATE THE ERECTION OF WOODEN BUILDINGS WITHIN THE FIRE LIMITS OF THE CITY OF VICTORIA, AND TO PROVIDE FOR THE STORAGE OF INFLAMMABLE AND COMBUSTIBLE ARTICLES.

BE IT ENACTED BY THE MAYOR and Council of the Corporation of the City of Victoria:—

1. It shall be lawful for the Mayor and Council, from time to time when by them deemed necessary, to appoint an Inspector of Buildings, at such salary as the Municipal Council shall think proper.

2. The duties of such Inspector shall be to oversee the erection of all buildings hereafter to be erected, built, enlarged, altered, or re-erected within the City of Victoria, and to enforce the provisions of this Bylaw.

3. To examine, by virtue of his office, or whenever he may be so directed by the Mayor and Council, or by a Police Magistrate, or by any Justice of the Peace of the said City, all chimneys, fireplaces, hearths, ovens, boilers, furnaces, stoves, steampipes, stovepipes, funnels, flues and all places where fires are made or kept, or where ashes are kept; and also to examine all buildings or other premises where gunpowder, coal oil, hay, straw or other inflammable substances are kept, or where any trade which is considered by the Inspector of Buildings dangerous as causing or increasing the liability of fire is carried on, and to report thereon, and if necessary, to notify the owner, lessee, occupier or party using the building of any defect or objection thereto, or to the construction thereof, in any such stovepipe, chimney, fireplace or ashpit, and to direct the repair, alteration or discontinuance thereof as may be considered requisite.

4. If any owner, lessee, occupier or party using a building where any chimney, fire place, hearth, oven, boiler, furnace, stove, steam pipe, funnel, flue or place for keeping ashes, or any other place which is deemed to be dangerous, neglects to discontinue the use of, or to alter, repair, or remove the same in accordance with the notice in that behalf and issued by the inspector of buildings or under the authority of a resolution of the Municipal Council of the said city of Victoria and signed by the said Inspector, or by one of the Fire Wardens, he or they shall be liable to a penalty not exceeding ten dollars a day for each and every day that default shall be made in not complying with the said notice in addition to all other penalties imposed by this By-Law.

5. Until otherwise ordered by the said Municipal Council the City Surveyor shall perform the duties prescribed by this By-Law, to be performed by the Inspector of Buildings.

6. In all cases of building or rebuilding any house, warehouse, or other building when on the line of any public street or within seven feet thereof, there shall be erected by the builder a board fence of not less than six feet in height to enclose not more than half of the width of the sidewalk in front of such building and outside of such fence a planked pathway shall be laid by such builder at least four feet wide, for the convenience of the public, or it shall be lawful for him instead of erecting such fence and pathway to plank over the whole of the scaffold at the height of the first floor above the ground floor of such building, and to enclose such scaffold at the same height at least eighteen inches all round above the level of the planked floor above said, the sidwalks of the street being left free for public use.

7. No person shall place any lumber, stone, chips, shavings, rubbish, or any building material whatever, on any sidewalk, except within the aforesaid fence, and when buildings are being erected on any street no person shall be allowed to occupy more than one-third in width of the roadway with any such building material so as to obstruct the free passage of the water in the drains, gutters or water courses, and no person shall suffer or permit any such building material to remain on the street any longer than is necessary for the erection of the building for which such material is designed; and on the completion of the external walls and roof of any such building, and of such completion the Inspector of buildings shall be sole judge, the contractor or owner thereof shall within three days thereafter entirely remove all materials from the street, and cause the street to be cleaned from all such building material and left in good repair.

CHIMNEY STACKS.

All Chimney Stacks shall be carried to a height of not less than four feet above the walls, Ridge, or Deck of any Roof, except in cases where the Ridge or Deck of any Roof exceed the height of six feet above the base of such Chimney, then the height shall be determined by the said Inspector, and where a Chimney Stack is used to carry away smoke or noxious vapors from any manufactory, the said Stack shall be carried to such a height as to effectually clear the surrounding buildings to the satisfaction of the said Inspector of Buildings. All Stacks shall be built of Stone, Brick or Iron and in the most substantial manner.

BOILERS AND OVENS.

9. No timber shall be laid within two feet of the inside of any Oven, Copper, Still, Boiler or Furnace, nor within nine inches of the opening of any chimney, nor within seven inches of any metal flue, nor within four and a-half inches of any brick flue, unless the wood is properly protected to the satisfaction of the Building Inspector.

STEAM PIPES AND FUNNELS.

No pipe or funnel for conveying steam shall be fixed next any public street or highway or on the front of any buildings, nor shall any funnel, pipe or flue for conveying fire or smoke be fixed on the inside of any building nearer than twelve inches to the face of any timber, nor shall any such funnel, pipe or flue pass through any timber, framing or partition of wood, or wood and lime, or through any wooden floor, in any house, outhouse, fence or building whatever, within the said City, unless there shall be a space of at least six inches clear between the said funnel, pipe or flue and such framing, partition or floor, and the same pass through a chimney of stone or bricks and mortar, or be encased by a rim of solid stone or thick metal not less than three inches wide and equal in thickness to the full finished thickness of the framing through which such pipes shall pass.

11. No occupant of any house or building within the said City shall permit any pipe-hole not in use in any chimney in such house or building to remain open; all such holes shall be closed with a proper stopper of metal or other incombustible material.

12. No person shall place or keep any ashes in any wooden box, or within three feet of any wooden floor or partition, or in any outhouse or shed, unless properly protected; and no person shall store or permit to be stored any combustible material in any yard within one hundred feet of any building unless the same is properly covered and protected from fire, and of the sufficiency of such protection the Inspector of Buildings shall be sole judge.

13. No person shall set up, erect, or construct, or build, or use, work, or cause or procure to be set up, erected, constructed, built or worked, any steam engine except under the terms of this bylaw.

14. No person shall establish, set up, carry on or continue within the said City any tannery, fellmongery or place for boiling soap, making or running candles, or for the melting of tallow, or any manufacture of varnish, fireworks, or any coal oil refinery, or any other factory which from its nature or the material used therein shall be dangerous, in causing or promoting fires, unless and until he shall have obtained a certificate of compliance with the general regulations hereby prescribed or to be prescribed by any bylaw of the Corporation.

INFLAMMABLE SUBSTANCES.

15 No larger quantity than 80 gallons of coal oil or any oils of a similar character in wooden casks, nor more than 300 gallons if in tin, metal, stone or earthenware, nor a larger quantity than 20 gallons of crude oil, burning fluid, naptha, benzole, benzine or other similar combustible and dangerous material shall be kept in any wooden building within the city limits, nor a larger quantity than 150 gallons of coal oil, or other such oils in wooden casks, or 750 gallons in tin, metal, stone or earthenware, nor any larger quantity than 80 gallons of crude oil, burning fluid, naptha, benzole, benzine or other similar combustible or dangerous material shall be kept in any brick building within the city limits unless the same shall be kept in a cellar properly ventilated and without a floor or one of brick, stone, cement, or other incombustible material, then 300 gallons of coal oil or other such oils in wooden casks or 1000 gallons if in tin, stone or earthenware may be kept, nor shall any of the fluids before mentioned be permitted to flow into any drain or sewer of the said city.

16. Notwithstanding any thing in the preceding section contained, when fire proof buildings are so constructed as to insure at all times a thorough ventilation thereof and are used exclusively for the purpose of keeping or storing coal oil, burning fluid, crude oil, naptha, benzola or other similar combustible or dangerous materials are isolated or detached at least two hundred feet from all other buildings, then any of the said fluids may be kept and stored therein without limit as to quantity.

17. No fire shall be taken into lighted or used within the said last mentioned storage buildings either for heat, light or any other purpose whatever.

18. Every person desiring to keep or store in the manner provided by the 16th section of this By-Law any of the fluids mentioned in the said 16th section, shall make a written application to the Mayor and Council for permission so to do, and shall state in such application the store, house, shop, building or place in which he desires to keep or store the said fluids, or any of them, and it shall be the duty of the said inspector to examine the premises of the applicant and to report to the said Mayor and Council thereon, and upon every such report the said Mayor or Council shall either grant or refuse permission.

19. When any building or buildings within the city limits shall be deemed by the City Inspector to be unsafe from any cause, the owner, lessee, contractor or agent shall be notified at once to make the same safe and secure, and every person so notified who fails within twenty-four hours (or such time as shall be expressed in the notice) to comply with such notice, shall be subject to all the penalties of this By-Law

FIRE LIMITS.

20. The Mayor and Council may from time to time by resolution very the existing Fire Limits.

21. No building shall be erected or placed on old or new foundations or on foundations partly old and partly new within the fire limits unless the same shall be built with main walls of concrete, stone, brick, iron or other suitable materials and the external walls of any brick building must be of not less than the following dimensions:

ONE-STORY BUILDINGS.

Outside walls shall not be less than one brick or 8½ inches thick, or more than 14 feet in height, or more than 50 feet in length unless strengthened by cross partitions or other means approved by the Inspector of buildings.

One and a half brick or 12½ inch thick walls shall not exceed 16 feet in height nor 70 feet in length unless strengthened by cross partitions or other means approved by the Inspector of buildings.

TWO-STORY BUILDINGS.

Outside walls, ground floor wall, to be not less than one and a half brick or 12½ inches thick, and not to exceed 16 feet in height or 70 feet in length without being strengthened by cross walls, partitions or other means approved of by the said Inspector.

Outside walls, first floor, to be not less than one brick or 8½ inches thick, nor more than 14 feet in height nor more than 50 feet in length unless strengthened as aforesaid.

THREE-STORY BUILDINGS.

Ground floor outside walls shall not be less than two bricks or 17½ inches thick, nor more than 17 feet in height nor more than 100 feet in length, unless strengthened as before mentioned.

First floor outside walls shall not be less than one and a half brick, or 12½ inches thick, nor more than 14 feet in height, nor more than 50 feet in length, unless strengthened as aforesaid.

Second floor outside walls shall not be less than one brick or 8½ inches thick nor more than 12 feet in height nor more than 50 feet in length, unless strengthened as before mentioned. And for every additional 20 feet length or 2 feet in height, or any fraction thereof added to any of the above measurements one half brick, or 4½ inches in thickness, must be added to the thickness of walls of each and every story; and the brick or stone work of any and every building must be carried to such height as may be requisite to effectually protect the woodwork of roof of such building from any adjoining building, and to the satisfaction of the City Inspector of buildings.

Basement walls are to be not less than 4½ inches thicker than the walls under which they are built, and shall be of either stone, brick or other suitable marials, and for every four feet in height over 10 feet or 20 feet in length over 70 feet, or any part thereof, then the walls must be increased in thickness 4½ inches.

Foundations to Brick or Stone Buildinfis not having Basements are to be not less than 18 inches in the solid ground below the floor level, and to be not less than 4½ inches thicker than the walls under which they are built, and are to be of Brick, Stone or other suitable material.

ROOF COVERINGS.

Roof coverings shall be of slate, tin, iron or other incombustible materials.

PUBLIC BUILDINGS.

22. All Doors in Theatres, Music Halls, Hotels, Churches and other buildings used for the assembly of large bodies of persons, must open outwards, and ample provision be made for the rapid emptyings of the said buildings.

23. No wooden buildings within the said fire limits shall be removed, except to a portion of the same lot on which it stands, or to a point outside of fire limits, and then only with the written permission of the Mayor and Council and subject to such conditions and stipulations as may be thought advisable, and no wooden building within the said limit shall be altered or changed without the written permission of the Inspector of buildings approved by a majority of Fire Wardens, which permit shall specify fully the alterations required, and no such permit shall be given if any increase will be made by the proposed change or alteration in the size of the wooden building within the said limits, or if such repairs increase the value of such building more than twenty-five per cent. the application therefore and a copy of each of such permits shall be kept in the office of the City Clerk.

PARTY WALLS, ARCHES, CHIMNEYS.

24. All party walls shall be built between house and house, except in such parts where each house has independent walls. Party walls not being of sufficient thickness shall be taken down when one or more of the adjoining houses requires to be rebuilt. External walls shall not become party walls unless the same shall have been previously erected in accordance with the provisions of the By-Law. The brickwork in all party walls and external walls shall be properly bonded, or anchored in every case.

25. No timber shall at any time hereafter be laid into any party wall or arch, except for bond to the same, nor into any party wall other than such templets, chains and bond-timbers as shall be necessary for the same, and other than the ends of girders, beams, binding or brunning joists, or other principal timbers; all of which timbers shall have at least four inches and a-half of solid brickwork between the ends and sides thereof, and the timber of any building adjoining thereto, and the ends of every girder, beam, purline, binding or trimming joists, and every piece of principal timber may be laid beyond the centre of any party wall, providing that there be left four inches and a half of solid brick or stonework at the end of every such piece of timber, except in places where any parts of the ends of any such timber shall be opposite to and level with any part of the ends of any timber of any adjoining building, in which case no part of such timber shall approach nearer than two inches to the centre of the said party wall.

BREAST SUMMERS.

26. Breast-summers in all cases shall be carried on brick or stone walls, or piers, or on cast iron columns seated on stone, and shall in no case be carried on story posts or other timber supports; and when the ends of any breast-summers shall approach the centre line of any party wall nearer than four inches and a-half, such ends shall be encased and entirely surrounded in cast iron shoes.

CHIMNEYS AND HEARTHS.

27. All Chimneys back to back on party walls shall be in the chimney backs at the least one brick or 8½ inches in thickness. Chimney backs in party walls not being back to back with any other chimney shall be at least 8½ inches clear from the party line; the thickness above specified to be continued to a height of at least 8 inches above the mantel in every case. All flues built in internal, external or party walls shall be surrounded by brickwork not less than 4 inches in thickness.

28. Chimney Hearths shall in all cases be laid wholly on brick or stone in cement, unless the same be in a cellar or basement story and be laid and bedded in solid earth, and every chimney shall have a slab or slabs or foot pieces before the same of stone, bricks, marble, iron or cement at least one foot four inches broad and extending at least six inches beyond each end of every fireplace opening.

29. Hay or Straw shall not be permitted to be stored or kept for sale in buildings within the city limits unless the same shall be properly secured from danger by fire to the satisfaction of the Inspector of Buildings and the Fire Wardens, and if any building used for the storage of hay or straw shall be deemed dangerous by the said Inspector or Fire Wardens the parties using the same shall be notified to discontinue the use thereof or to have said buildings made secure, and for every day so using the said buildings, or permitting them to be used after the expiration of such notice, they shall be liable for the full penalty mentioned in this Bylaw.

30. The line of wall of any building fronting on any street, alley, lane or public highway within the limits of the City of Victoria, shall be parallel with the centre line of such street, alley, lane or public highway as laid down on the official map of the said city, and no building, or part of any building shall project or encroach on any such street, alley, lane or public highway.

31. The penalty for the breach of any section of this bylaw shall be the same as is mentioned in the Municipality Act, 1881.

32. All bylaws and parts of bylaws conflicting with this bylaw shall be, and the same are hereby repealed.

33. This bylaw shall be cited as the "Victoria Building Bylaw, 1883." Passed the Council this 29th day of June, A.D., 1883.

Reconsidered and finally passed this Eleventh day of July, A.D., 1883.

CHAS. E. REDFERN,

{Seal} Mayor.

WM. LEIGH, C. M. C. j30

NOTICES TO CLAIMANTS OF LAND.

WELLINGTON DISTRICT.

NOTICE IS HEREBY GIVEN, THAT Section 12, Wellington District, has been surveyed for Mr. W. O. Lockhart as the land claimed by him under Pre-emption Record No. 1427, dated July 9th, 1873, upon which a Certificate of Improvement was issued March 8th, 1877.

A plan of the above mentioned section can be seen at the Lands and Works Office, Victoria, and at the office of M. Bray, Esq., Commissioner, Nanaimo, where forms of proof and declaration can be obtained.

The above or any other claimant to this land must prove up their claim within three moths from date of this notice.

INSHORE FISHERIES, BRITISH COLUMBIA

PUBLIC ATTENTION IS CALLED TO CERTAIN provisions of the Statutes of Canada, intituled respectively, "An Act respecting Fishing by Foreign Vessels," 31 Vic., Cap. 61, and "An Act to Extend to British Columbia the Act Relating to Fishing by Foreign Vessels," 46 Vic., Cap. 27, forbidding any foreign ship, vessel or boat, not navigated according to the laws of the United Kingdom, or of Canada, to fish for, take, dry or cure any fish of any kind, within three marine miles of the coasts, bays, creeks or harbors of Canada, not affected by the Convention of 1818, and the Treaty of Washington, between Great Britain and the United States.

Ships, vessels and boats, together with all goods, tackle, rigging apparel, furniture, stores and cargo liable to forfeiture under the said Acts, may be seized by any of the Officers hereinafter named:—

Fishery Officers, Customs Officers, Sheriffs, Magistrates and Commissioned Officers of Her Majesty's Navy.

By order of the Acting Minister.

W. F. WHITCHER,

Commissioner of Fisheries.

Department of Marine and Fisheries,

Ottawa, 1st June, 1883. je27

LAND REGISTRY ORDINANCE, 1870.

THE SOUTHERLY HALF OF LOT NO. 1831, VICTORIA CITY.

A CERRIFICATE OF INDEFEASIBLE TITLE to the above mentioned half lot will be issued to Robert John Horton, on the first day of September next, unless in the meantime a valid objection thereto be made to the undersigned in writing by some person having an estate or interest in said half lot or any part thereof.

H. B. W. AIKMAN,

Land Registry Office, 31st May, 1883. je1

QUALIFICATION AND REGISTRATION OF VOTERS' ACT, 1876.

VICTORIA ELECTORAL DISTRICT.

NOTICE IS HEREBY GIVEN THAT IN PURsuance of subsection f. of section 7, of the "Qualification and Registration of Voters' Act. 1876," I shall, on Monday, the 1st day of August next, hold a Court of Revision for the purpose of hearing and determining any or all objections against the retention of any names on the Register of Voters.

Such Court will be open at 12 o'clock, noon, at the Royal Oak, Saanich Road.

SAMUEL ROBERTS,

je30 Collector.

NOTICE

NOTICE IS HEREBY GIVEN THAT A LICENSE to Prospect for Coal for one year from the date hereof, under the provisions of the "Coal Prospecting Act, 1883," over a tract of 480 acres, situated on the North shore of Winter Harbor, Quatsino District, near the mouth of the river, has been issued to Daniel Morrison and William Ettershank.

WM. SMITHE,

Chief Commissioner of Lands and Works.
